REMARKS		

25X1

- At a meeting held on 3 December 1950 in the officers' club of the VP school at the Prenzlau (N 54/Q 04) airfield, there were in attendance representatives of the Prenzlau KVV Firm (Association of Municipal Enterprises), the VVB Firm Hoch- und Tiefbau Nord-Ost (Underground and Construction Work Northeast), the Reconstruction Department of the Prenzlau district, the Landrat of the Prenzlau district, and numerous construction officers of the Volkspolizei.
- The subjects discussed included the reconstruction of garages at the airfield, the reconstruction of destroyed residential blocks in the field area, and the reconstruction of destroyed buildings on Bruessower Strasse which are to be used by the VP.
- The costs were estimated at about one million DM. The construction was to be completed by 31 December 1950. A total of 30 bricklayers and 40 helpers for excavating were demanded from the Prenzlau labor office. *

* ☐ Comment. The airfield is not occupied by an air force unit, but by a VP unit. The report indicates that the airfield is not being reconstructed for use by air force units.
